This directory contains the latest information available on our line of Key Blanks, Key Machines and Key Blank Assortments. We have made every attempt to ensure the accuracy of its contents. We believe we have produced a valuable tool if used as intended - as a guide. In the case of Key blank selection, we recommend you continue to check a selected Key Blank against the original Key for blade length, width, shape and milling before duplicating.

INTRODUCTION

This directory is designed to be a valuable reference tool for the professional locksmith. It contains extensive technical data and actual size drawings of key blanks and milling profiles. The directory is divided into color-coded sections; each section is organized in alphabetical order by lock manufacturer or application. The sections are as follows:

INDEX
There are two indexes in this reference document. The first is ILCO key blank numbers. They are listed in numeric-alphabetical order with the section and page(s) they are shown on. The second is a brand index of lock manufacturers and applications. Key blanks that fit these brands can be found on the page(s) indicated.

SECTION 1 - Worldwide Vehicle
Key blanks used in vehicles (automobiles, motorcycles, yard tractors, etc.) and applications related to vehicles (such as gas caps, steering wheel locks, toolboxes, etc.). This is a worldwide listing. Some of the key blanks in this section will have transponders and are identified with the symbol "".

SECTION 2 - North American Cylinder
Key blanks for residential and commercial applications (including padlocks) that are primarily sold in North America (Canada, United States, Australia and Mexico). Lock manufacturers are listed in alphabetical order. Some key blanks may be listed in other sections. If you cannot find a lock manufacturer in a particular section, be sure to refer to the brand index.

SECTION 3 - International Cylinder
Key blanks for residential and commercial applications (including padlocks) that are primarily made and sold in markets other than North America or Australia. Lock manufacturers are organized in alphabetical order. Silca and Orion key blank numbers are referenced below the ILCO number.

SECTION 4
4A - Originals
Through licenses with vehicle manufacturers, we are now authorized to offer automotive key blanks with the original manufacturers' logos. This section includes Chrysler, Ford, and GM originals.

4B - Look Alikes
Key blanks which are made as close to the original as legally possible. They would meet the industry standards of an original, except they do not carry the original or ILCO logo. They are also normally less expensive than original equipment key blanks.

SECTION 5 - Safe Deposit
Worldwide listing of key blanks for safe deposit and some safe applications. Safe deposit manufacturers are shown in alphabetical order.

SECTION 6
6A - Flat Steel
Steel and other material key blanks that are used in warded padlocks, gym lockers, yard tractors, etc. They are organized by lock manufacturer where possible and listed in numerical order.

6B - Specialty Keys and Assortments
Specialty key blanks such as large bow, neuter bow, painted keys and key blank assortments are shown in this section.

SECTION 7 - Bit and Barrel
Keys are separated by type (i.e. bit or barrel). Technical data, including material (i.e. malleable iron, bi-metallic, brass, etc.), is shown beneath each key illustration.

SECTION 8 - Miscellaneous
Specialty key blanks such as Ultralites, Plastic Color Head, Hotel Head, and Do Not Duplicate are shown in this section.

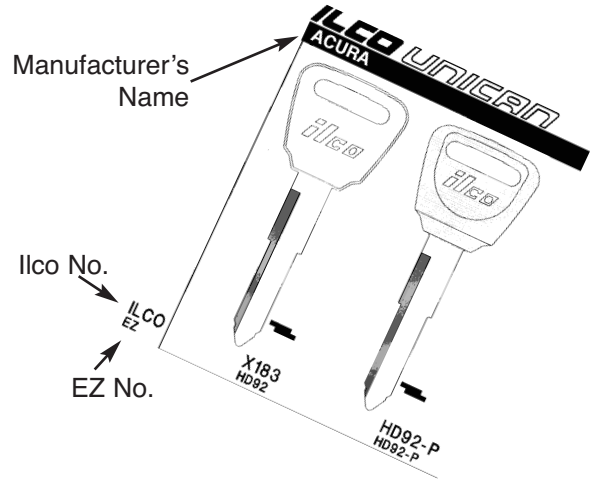

SECTION 9 - Assortments and Merchandising Aids
Key displays, key towers, assortments, etc. to assist in organizing and displaying key inventory.

SECTION 10 - Key Machines
A brief description of our most popular key machines from Ilco, Orion, and Silca that are currently offered by Kaba Ilco Corp..

SECTION 11 - Cross Reference
The cross reference consists of three sections. The first two cross reference Dominion Lock and Taylor numbers to the Ilco number. The third cross reference lists major lock and replacement key manufacturers in alphabetical order with their key numbers in the appropriate sequence. The ILCO key equivalent is listed beside the original or competitors' key number. This listing is set up as a functional cross reference. Certain replacement key manufacturers have been omitted due to laws in their respective countries concerning the publishing of a cross reference.

PAGE SET UP

- The manufacturer's name appears above the key blank drawings.
- The ILCO number appears below each key. Vehicle section references the EZ numbers below the ILCO number.
- International Cylinder section references Silca and Orion key blank numbers below the ILCO number.
- Key drawings may also show important information such as number of pins, the presence of a transponder in the head, etc.

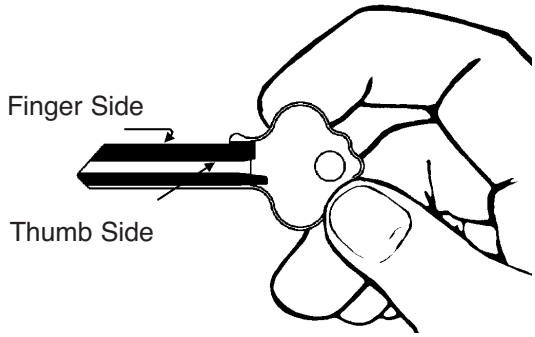

KEY DRAWINGS

Key blank drawings and milling profiles are shown actual size.

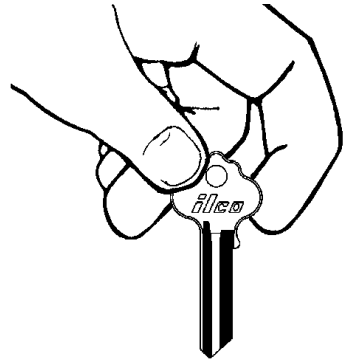

Most single side keys are illustrated from the finger side. To determine the finger side, hold the key in the right hand between the thumb and index finger. Be sure the bitted area is facing up. The finger side is held by your index finger.

Where two milling profiles with different head shapes or configurations exist, both versions are shown.

CHECKING MILLING PROFILES

To check the milling profile, hold the key blank by the head and place the tip of the key over the milling profile. Looking straight down, check both sides of the milling profile to be certain of a match.

1054MT
IN33

This directory illustrates all of the key blanks currently manufactured by Kaba Ilco Corp.; however, we are constantly adding new key blanks to keep up with market demands. We make every effort to keep the market informed of new key blanks, and any updates to this document will be in the format explained above.

This directory includes some key blanks that are made by Silca, a sister division of Kaba Ilco Corp.. These Silca key blanks have no ILCO equivalent, and have been added to our product line to meet the anticipated needs of our many markets.

The ILCO KEY DIRECTORY is a valuable reference document and we welcome your comments on how to improve it in the future.

INTRODUCTION

Le présent répertoire est un outil précieux à l'usage du serrurier professionnel. Il contient nombre de caractéristiques techniques et díillustrations grandeur réelle des clés brutes et de leurs profils. Il se divise en sections codées par couleur dans lesquelles les fabricants de serrures ou les applications figurent par ordre alphabétique. Les différentes sections sont les suivantes:

INDEX
Ce document de référence comprend deux index. Le premier index est constitué des numéros de clés brutes ILCO. Ceux-ci figurent dans l'ordre alphanumérique et comportent l'indication de la section et le(s) numéro(s) de (s) page(s) sur lesquelles figure la clé correspondante. Le deuxième index est consacré aux marques de fabricants de serrures et de différentes applications. Les clés brutes correspondant à ces marques figurent sur la/les page(s) indiquée(s).

SECTION 1 — Véhicules internationaux
Clés brutes utilisées pour les véhicules (automobiles, motos, tracteurs de manutention, etc.) et les applications connexes (clés de bouchons de réservoir d'essence, de volants, de boîtes à outils, etc.). Il s'agit d'une liste de clés utilisées à l'échelle internationale. Certaines clés brutes de cette section sont dotées d'un transpondeur et sont désignées par la lettre «X».

SECTION 2 — Cylindres nord-américains
Clés brutes connues pour les applications commerciales (y compris les cadenas) qui sont principalement vendues en Amérique du Nord (Canada, États-Unis, Mexique, Australia). Les fabricants de serrures apparaissent dans l'ordre alphabétique. Certaines clés brutes peuvent figurer dans d'autres sections. Si vous ne retrouvez pas un fabricant de serrure dans une certaine section, assurez-vous de consulter l'index des marques.

SECTION 3 — Cylindres internationaux
Clés brutes pour les applications à usage résidentiel ou commercial (y compris les cadenas) principalement fabriquées et vendues à l'extérieur de l'Amérique du Nord et de l'Australie. Les fabricants de serrures apparaissent dans l'ordre alphabétique. Les numéros de clés brutes Silca et Orion figurent au-dessous du numéro ILCO.

SECTION 4
4a — Originaux
Par le biais d'accords passés avec les constructeurs de véhicules, nous sommes dorénavant autorisés à offrir les clés brutes de véhicules munies du logo original du constructeur. Cette section comprend les clés originales de Chrysler, Ford et GM.

4b — Ligne Look Alike
La fabrication des clés brutes est, dans les limites prévues par la loi, pratiquement identique à la fabrication des clés originales, mis à part le fait qu'elles ne sont pas munies du logo original ILCO. Il est évident qu'elles sont également moins chères que les clés brutes originales.

SECTION 5 — Coffres-forts
Clés brutes utilisées dans le monde entier pour les coffres-forts et autres applications connexes. Les noms de fabricants de coffres-forts figurent dans l'ordre alphabétique.

SECTION 6
6A — Clés et Assortiments Spécialisés
Dans cette section, on peut voir des clés brutes spécialisées, telles que des clés à grand anneau, des clés à anneau neutre, des clés peintes et des assortiments de clés brutes.

6B — Clés spéciales
Choix de clés brutes pour utilisations spéciales. Classées éventuellement par fabricant de serrure et dans l'ordre numérique.

SECTION 7 — Clés à panneton et clés forées
Clés classées selon leur type (à panneton ou forées) et éventuellement par fabricant. Les caractéristiques techniques, y compris le matériau (p. ex.: fonte malléable, bimétallique, laiton, etc.) figurent sous chaque illustration.

SECTION 8 — Divers
Clés brutes spéciales: clés pour utilisations spécifiques, clés à tête de plastique de couleur, clés pour hôtels, clés impossible à dupliquer.

SECTION 9 — Assortiments et accessoires promotionnels
Présentoirs de clés, tours de clés, assortiments, etc., pour vous aider à ranger et à présenter vos stocks de clés.

SECTION 10 — Machines à tailler les clés
Brève description des machines à tailler les clés les plus courantes de Ilco, Orion et Silca actuellement offertes par Kaba Ilco Corp..

SECTION 11 — Renvois
Les renvois sont classés selon trois sections. Les deux premières sections renvoient les numéros Dominion Lock et Taylor à un numéro Ilco. La troisième section dresse la liste des principaux fabricants de serrures et de clés de rechange dans l'ordre alphabétique et des numéros de clés dans l'ordre séquentiel. La clé ILCO équivalente figure à côté du numéro de la clé originale ou de la clé du concurrent. Cette liste est établie sous forme de table de correspondance fonctionnelle. Certains fabricants de clés de rechange ont été omis en vertu des lois en vigueur dans leurs pays respectifs sur la publication des renvois.

DISPOSITION DES PAGES

- Le nom du fabricant figure au-dessus des illustrations des clés brutes.
  Le numéro Ilco figure au-dessous de chaque clé.
- La section Véhicules indique les numéros EZ au-dessous du numéro ILCO.
- La section Cylindres internationaux indique les numéros des clés brutes Silca et Orion au-dessous du numéro Ilco.
- Les illustrations des clés comportent parfois des renseignements importants tels que le nombre de goupilles, la présence d'un transpondeur dans la tête de la clé, etc.

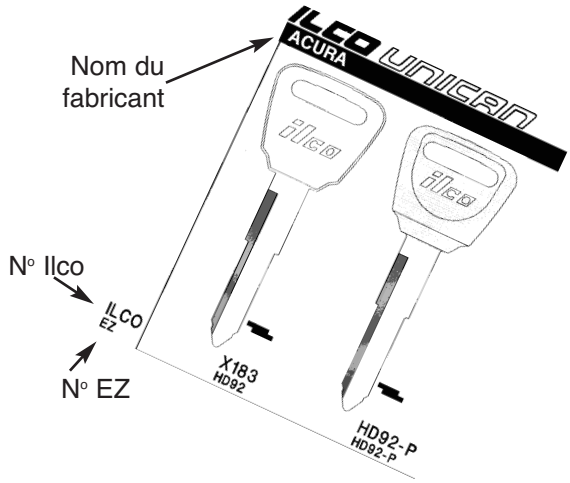

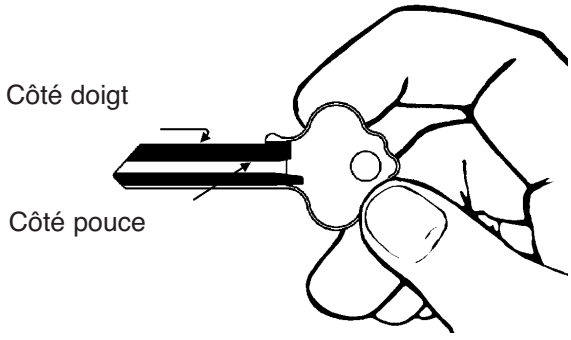

ILLUSTRATION DES CLÉS

Les illustrations des clés brutes et de leur profil sont présentées en grandeur réelle.

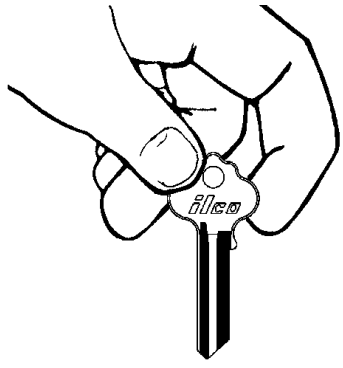

La plupart des clés à simple lame active sont illustrées «côté doigt». Pour se positionner ainsi, tenir la clé dans la main droite entre le pouce et l'index, la lame vers le haut. Le «côté doigt» est celui en contact avec l'index.

Lorsque deux types de profil de clé ont des tÍtes ou des configurations différentes, les deux versions sont illustrées.

VÉRIFICATION DES PROFILS

Pour vérifier le profil d'une clé, il suffit d'en saisir la tête en plaçant la pointe de la clé au-dessus du profil. Regarder vers le bas et vérifier les deux côtés du profil afin de s'assurer du bon appariement.

1054MT
IN33

Ce répertoire illustre toutes les clés brutes actuellement fabriquées par Kaba Ilco Corp.. Toutefois, nous ajoutons constamment de nouvelles clés brutes afin de répondre à la demande du marché. Nous déployons tous nos efforts pour tenir le marché informé de la création des dernières clés brutes et toutes les mises à jour de ce catalogue se présenteront dans le format expliqué ci-dessous.

Le répertoire comprend certaines clés brutes fabriquées par Silca, une division associée de Kaba Ilco Corp.. Il n'y a pas de modèle équivalent de ces clés brutes Silca à Kaba Ilco Corp.. Les clés Silca ont été ajoutées à notre gamme de produits dans le but de répondre aux besoins de nos nombreux marchés, voire de les devancer.

Le présent RÉPERTOIRE DE CLÉS ILCO constitue un précieux document de référence. N'hésitez pas à nous faire part de vos commentaires sur une amélioration éventuelle de ce répertoire.

INTRODUCCIÓN

Esta guía pretende ser una referencia útil para el cerrajero profesional. En ella se ofrecen abundantes datos técnicos y dibujos de llaves en bruto a tamaño real y de perfiles de fresado. La guía está dividida en secciones de colores. Cada sección está organizada por orden alfabético del fabricante o de la aplicación. Las secciones son las siguientes:

ÍNDICE
Hay dos índices. El primero son los números de las llaves en bruto de ILCO listados por orden numérico-alfabético, con las secciones y las páginas en donde aparecen. El segundo es un índice de marcas de fabricantes de cerraduras y de aplicaciones. Las llaves en bruto que corresponden a esas marcas se pueden encontrar en la página indicada.

SECCIÓN 1 – Vehículos de todo el mundo
Llaves en bruto para vehículos (automóviles, motocicletas, tractores, etc.) y para aplicaciones relacionadas con ellos (tapón del depósito de gasolina, dispositivo de bloqueo de la dirección, caja de herramientas, etc.). Esta lista es mundial. Algunas de las llaves que aparecen en esta sección están equipadas con mando a distancia, en cuyo caso se identifican con el símbolo “X”.

SECCIÓN 2 – Cilindro norteamericano
Llaves en bruto para uso residencial y comercial (incluyendo candados), vendidas sobre todo en América del Norte (Canadá, Estados Unidos y México, Australia). Los fabricantes de cerraduras aparecen listados por orden alfabético. Algunas llaves pueden aparecer también en otras secciones. Si tiene dificultades para encontrar un fabricante de cerraduras, verifique el índice de marcas.

SECCIÓN 3 – Cilindro internacional
Llaves en bruto para uso residencial y comercial (incluyendo candados), vendidas sobre todo al exterior de América del Norte y de Australia. Los fabricantes de cerraduras aparecen listados por orden alfabético. Los números de las llaves Silca y Orion son citados según la numeración ILCO.

SECCIÓN 4
4A – Originales
Gracias a las autorizaciones otorgadas por los fabricantes de automóviles, ahora podemos ofrecer llaves en bruto de vehículos con el símbolo del fabricante. En esta sección pueden encontrarse originales de Chrysler, Ford y GM.

4B – Copias
Llaves en bruto tan parecidas a la original como la ley lo permite. Cumplen las normas de la industria con la única diferencia de que no llevan el símbolo original o el de ILCO. Normalmente son más baratas que las llaves de origen.

SECCIÓN 5 – Cajas de seguridad
Listado mundial de llaves en bruto para cajas de seguridad y otras aplicaciones de seguridad. Los fabricantes de cajas de seguridad aparecen listados por orden alfabético.

SECCIÓN 6
6A – Variedades y Llaves Expeciales
En esta sección se muestran variedades de llaves en blanco y llaves en blanco especiales como llaves de curvatura grande, de curvatura neutra y llaves pintadas

6B - Por especialidad
Una selección de llaves en bruto para usos específicos. En la medida de lo posible se presentan por fabricante de cerraduras y en orden alfabético.

SECCIÓN 7 - Paletón y cilindro
Las llaves están divididas por tipo, es decir, con paletón o con cilindro. Los datos técnicos, incluyendo el material (hierro maleable, bimetálico, latón, etc.), se presentan debajo de cada ilustración.

SECCIÓN 8 – Diversas
Llaves en bruto de diversos tipos como ultraligeras, con empuñadura de plástico de color o con el nombre de un hotel, o con la inscripción “Copia prohibida”.

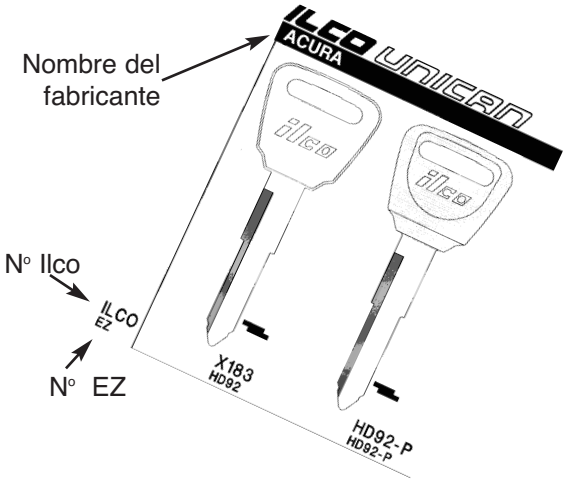

SECCIÓN 9 – Accesorios de venta
Vitrinas para llaves, expositores en forma de torre, accesorios, etc. para la organización y presentación del inventario de llaves.

SECCIÓN 10 – Máquinas para llaves
Breves descripciones de las máquinas para llaves más populares de Ilco, Orion y Silca, ofrecidas actualmente por Kaba Ilco Corp..

SECCIÓN 11 – Referencias cruzadas
La tabla de referencias cruzadas tiene tres secciones. Las dos primeras indican los números Dominion Lock y Taylor y su correspondiente de Ilco. La tercera presenta los fabricantes más importantes de llaves de reemplazamiento y de cerraduras, clasificados por orden alfabético con sus números de llaves en la secuencia apropiada. La llave ILCO equivalente se lista al lado del número de la llave original o del de la competencia. El listado se presenta en forma de referencia cruzada funcional. Algunos fabricantes de llaves de reemplazamiento se han omitido debido a las normas legales de sus países relativas a la publicación de referencias cruzadas.

PRESENTACIÓN DE LA PÁGINA

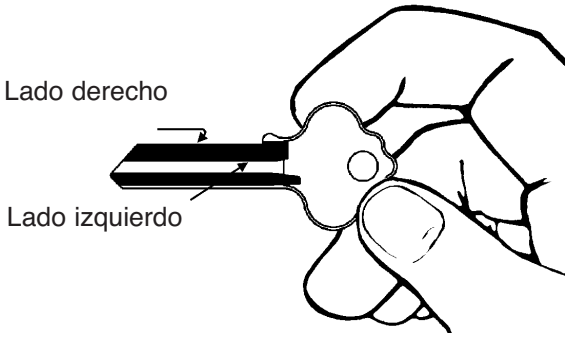

- El nombre del fabricante aparece encima de los dibujos de las llaves en bruto.
- El número de ILCO se presenta debajo de cada llave.
- La sección de vehículos indica los números EZ debajo del número ILCO.
- La sección “cilindro internacional” da los números de las llaves en bruto Silca y Orion debajo del número ILCO.
- Los dibujos de las llaves pueden mostrar también informaciones importantes, como el número de paletones de la llave, si dispone de un mando a distancia, etc.

Dibujos de las llaves

Los dibujos de las llaves en bruto y de los perfiles de fresado se presentan a tamaño natural.

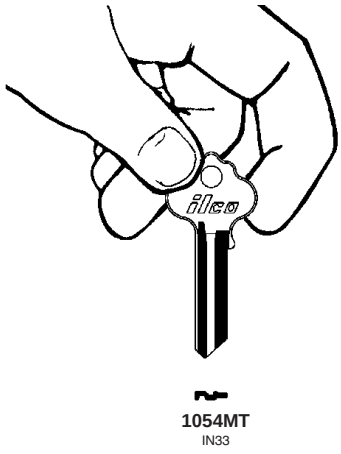

La mayor parte de las llaves que tienen un solo lado se muestran desde el lado derecho. Para saber cuál es el lado derecho, coja la llave con la mano derecha con los dedos pulgar e índice. Asegúrese de que la zona del paletón está boca arriba. El lado derecho es donde se apoya su dedo índice.

Cuando hay dos perfiles de fresado con diferentes empuñaduras o configuraciones, se presentan las dos versiones.

VERIFICACIÓN DEL PERFIL DE FRESADO

Para verificar el perfil de fresado, coja la llave en bruto por la empuñadura y coloque el extremo de la llave sobre el perfil de fresado. Verifique los dos lados del perfil de fresado para asegurarse del ajuste.

Esta guía ilustra todas las llaves en bruto fabricadas actualmente por Kaba Ilco Corp.. Sin embargo, añadimos constantemente nuevas llaves para satisfacer la demanda e intentamos informar de ello al mercado lo más rápidamente posible. Todas las actualizaciones de este documento se harán en el formato explicado anteriormente.

La guía incluye también algunas llaves en bruto fabricadas por Silca, una división filial de Kaba Ilco Corp.. Esas llaves en bruto Silca no tienen equivalente ILCO y se han añadido a nuestra línea de productos para anticipar las necesidades de los múltiples mercados en los que actuamos.

La GUÍA ILCO es un documento de consulta muy útil. No duden en enviarnos cualquier comentario o sugerencia que nos permita mejorarlo.

INDEX

The following Key Blank location index has been prepared to assist you in locating a key blank. Key Blank location is designated by section and page number. In the case of multiple listings for the same key blank, each location is shown.

Section 1
VEHICLE

Key blanks for automobiles, motorcycles, airplanes, boats, garden tractors, etc., designed and manufactured worldwide. The manufacturers are listed in alphabetical order with keys listed in numerical sequence where possible.

There are several symbols and suffixes used in this section. Below is a legend of their use.

	Transponder Key
	Electronic Key
	Special Key Machine Required
	Cloning Tool Required
-P	Plastic Head Key
-PC	Color Plastic Head Key
-P (-PC)	Available with Black or Color Plastic Head

* NOTE: This special blank is not a cut key. It is to be used the same as regular blanks for duplicating, cutting from code or from depth keys. It will save the locksmith 80% of his work, and the key can be cut more accurately and in less time. After cutting the special blank, when compared with the original keys, they will not be exactly alike in the pass cut positions, but this is not important as long as they match with the original where the tumblers rest on the key.

Section 3
INTERNATIONAL CYLINDER

Key Blanks designed for locks used primarily outside of North America. Manufacturers are listed in alphabetical order and keys are listed by manufacturer in a numerical order where possible.

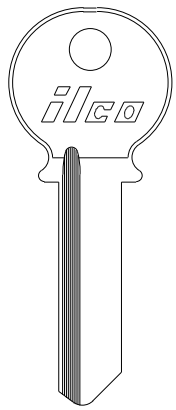

Throughout this section you will notice . This symbol indicates that a special key machine is required to cut that blank.

Section 4

This section is separated into two parts as follows.

Section 4a

ORIGINALS

Key Blanks with the authorized Original Manufacturer's logos and/or designs.

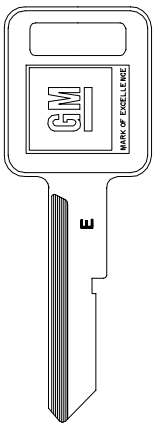

Section 4b

LOOK ALIKE®

Key Blanks manufactured to look just like the Original Manufacturer's key, without the brand name.

Section 6

This section is separated into two parts as follows:

Section 6a

FLAT STEEL

Worldwide flat steel keys. Organized by lock manufacturer where possible and listed in numerical order. Only keys with keyway milling or corrugation are illustrated with a profile view.

Section 6b

MISCELLANEOUS KEYS

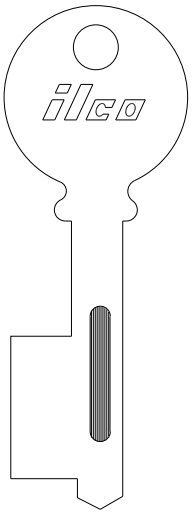

A selection of special purpose keys organized by lock manufacturer where possible and listed in numerical sequence.

Section 7
BIT AND BARREL

Keys are separated by type - bit or barrel and are in number sequence

DETERMINING SPECIFICATIONS ON BIT KEYS

Dimensions of a Bit Key

Dimensions of a Barrel Key

The following pages show our selection of Bit and Barrel Key Blanks. This page will help you identify the key blank you are looking for.

- The chart below lists various types of materials used in Bit and Barrel key blanks.
- Measurements below each key drawing are shown in hundredths of an inch and tenths of a millimeter. Please understand that these styles of key blanks are not made to the same tolerances of cylinder key blanks by the nature of the processes utilized. If the dimensions are close they will more than likely work.

Diagrams (left) show how the bit and barrel keys are measured so you can understand what to measure for comparison.

Materials Used

MI	- malleable iron
Steel/Plastic	- a nickel plated steel shaft with a plastic tip
Steel/Zinc	- a nickel plated steel shaft with a die cast zinc tip
Brass	- a brass die cast key blank
Prec. Cast	- a precision zinc die cast key blank

Section 8

This section is separated into two parts as follows:

Section 8a

SPECIALTY KEYS

This section contains Large Bow, Neuter Bow, Personalized Keys and Painted keys.

Section 8b

MERCHANDISING AIDS

This section describes available ways to merchandise Ilco® key blanks.

Decorated (Painted) Keys

Your consumer's eyes are sure to be drawn to this line of keys. Whether they are choosing a fun way to express their individual style or a functional way to differentiate one key from another, this popular category offers an ever changing variety of designs, patterns and officially licensed key blanks. See our web site for the latest designs.

Our patented decorating process allows for intricate, detailed designs as well as a specific and precise color match. This specialized process also provides Ilco brand decorated keys with a durable, scratch and chip resistant finish.

Personalized

These keys are made to help you to promote your business and assure repeat business. Ilco offers you a wide variety of keyways and bow (head) styles for your personalized information. Two types of personalization are available; state-of-the-art laser engraving or a high quality embossed customer logo and/or other information. You can also choose from original manufacturers bow shapes, the neuter/security bow, or from several custom shapes.

Neuter Bow

Security Head keys have a common or "neuter" bow and may be incised with "DO NOT DUPLICATE". The common bow does not have an identifying number which helps to deter unauthorized duplication. The back of the key is blank and may be imprinted with your specific information, room numbers, etc. The most popular residential and commercial keyways are available in this line of keys.

Large Bow

Large bow keys (also known as hotel keys) offer your customers another option to meet their requirements. This line is made from nickel silver stock to provide greater torque strength; providing more resistance to twisting and breakage. Keys feature a "blank" area for stamping. This line may also be coined to your specifications by adding logos and special designs.

Color Plastic Head

Color plastic head keys offer you customers another solution for visual identification.

Ilco offers two styles for you to choose from; Cool Colors are a line of "soft-gel", transparent color plastic head keys. Solid Color Plastic Head include an opaque color plastic that is framed in metal.

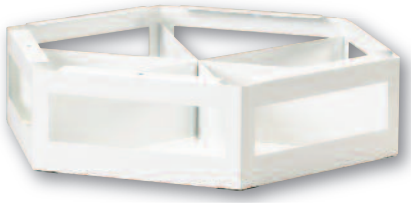

Key Center

The modular Key Cutting Center allows you to maximize profits per square foot. From a small footprint, you have the flexibility to build from a smaller, single tier tower to the larger double tower with the most popular of both residential and commercial key blanks.

Add Key Tower accessories that fit your requirements. Accessories include a 4-wheel cart with built in shelving, to garage side racks for “niche” keys, to a garage with shelf for additional equipment or storage.

Displays

For merchandising, choose from rotating racks, carded racks or flat panel displays. Our selection of displays ranges from small “free-standing” to large “wall-mounted”. These are perfect for your specialized or “niche” assortments or for consolidating consumer favorites such as painted keys.

A specialized grouping of painted keys can be featured on a small acrylic display. This display with insert is included with many of our assortments or you can order the plain display and develop your own insert for localized, personal promotions.

Displays are updated to meet changing requirements. Check with your distributor for current offering.

Point Of Sale (POS) Support

Ilco offers an ever changing assortment of POS support materials. This includes signs, banners, decals, and more to help maintain and support product sales.

POS support items are updated to meet changing requirements. Check with your distributor for current offering.

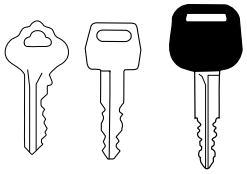

Section 9
KEY MACHINES

This section presents the current line-up of Ilco and Silca brand standard and specialty key machines.

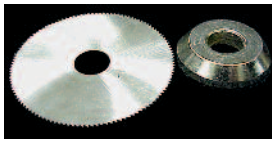

008A - Manual Duplicator (Cylinder/Automotive)

The Mini-Mite manual duplicator is a lightweight, compact machine that is perfect for carrying right to the job. Weighs only 10 lbs. (4.5 kg.). Use the optional 27X accessory pack to convert the 008A to cut flat style keys.

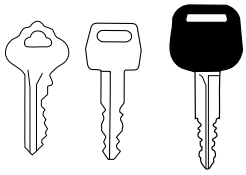

Weight: 10 lbs. (4.5 kg)
Dim.: 8"W x 5.25"D x 4" H
(20.3cm x 13.3cm x 10.2cm)

27X 

044 HD - Semi-Automatic Duplicator (Cylinder/Automotive)

This lever controlled semi-automatic machine cuts accurate duplicate keys with speed! A typical single sided key can be cut in just seven seconds. Extra wide vise jaw spacing accommodates keys with large bows and long blades. Compatible with most generators/Inverters 500 watt output and higher. Maintenance free Ball Bearing cutter spindle system, hardened shafts, Super Jaw 3 “sure grip” vises.

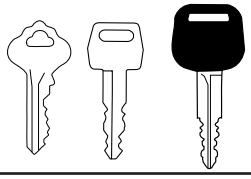

Weight: 42 lbs. (19 kg)
Dim.: 14.5"W x 16"D x 10"H
(36.8cm) x (37cm) x (28cm)

PERFORMANCE Series

045 HD - Manual Duplicator (Cylinder/Automotive)

The 045 is the perfect basic duplicator for any store or shop. It is accurate, economical and easy to use! The offset carriage lets you gauge keys at their tip or shoulder as needed for maximum versatility. Maintenance free Ball Bearing cutter spindle system, hardened shafts, Super Jaw 3 “sure grip” vises.

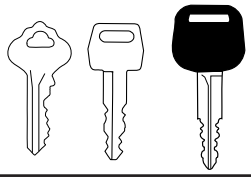

Weight: 32.8 lbs. (14.9 kg)
Dim.: 14.5"W x 17.5"D x 8.75"H
(36.8cm) x 44.5cm x 22.2cm)

PERFORMANCE Series

040 HD - Manual/Automatic Duplicator (Cylinder/Automotive)

Designed to handle keys with large bows or long blades, the 040 is an automatic machine that can be used manually as needed. The Super Jaw 3 vises can be set four different ways to hold virtually any key. A very versatile key machine. Maintenance free Ball Bearing cutter spindle system, hardened shafts, Super Jaw 3 “sure grip” vises

Weight: 36 lbs. (16.4 kg)
Dim.: 15.5"W x 16"D x 8.5"H
(39.4cm x 40.6cm x 21.6cm)

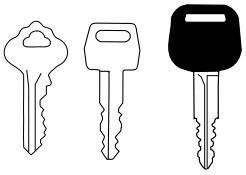

PERFORMANCE Series

KD50C - Semi-Automatic Duplicator (Cylinder/Automotive)

Remarkable speed and accuracy in a superbly crafted machine. Cuts single sided keys in as little as five seconds! The vise jaws are engineered to grip even the most troublesome double-sided auto keys. Loaded with features every user will appreciate. Superior design provides outstanding cutting accuracy and dependable, long term performance.

Weight: 55 lbs. (25 kg)
Dim.: 16"W x 18"D x 10" H
(41cm x 46cm x 25cm)

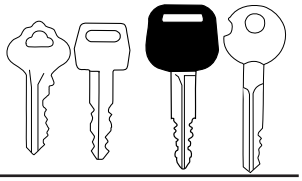

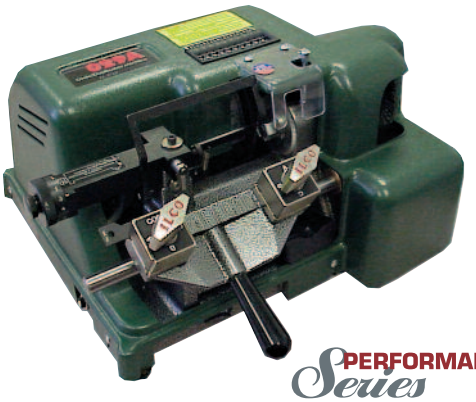

Bravo III (with EZ-Jaw™ vises) - Semi-Automatic Duplicator (Cylinder/Automotive)

A sturdy machine designed to deliver years of service. The Bravo III features quickly to rotatable, EZ-Grip 4-position vise jaws, twin carriage shafts, a safety release carriage, and a micrometer adjustable tracing guide. Precision machined parts and ergonomic design provide for unsurpassed accuracy and ease of use.

Weight: 42 lbs. (21 kg)
Dim.: 15"W x 18"D x 9.5"H
(42cm x 53cm x 30cm)

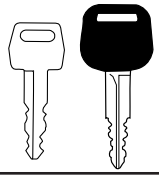

PERFORMANCE Series

029A - Manual Duplicator/Code Cutter (Cylinder/Auto)

A dual function machine designed to cut automotive keys by code* or by duplication. Engineered for the increasingly precise newer generation of locks. Built to last and produce keys in an economical manner. Code capabilities can be expanded with economical code component kits.
*Code accessories sold separately.

Weight: 42 lbs. (19 kg)
Dim.: 15"W x 14.5"D x 9"H
(38cm x 37cm x 23cm)

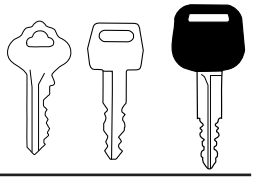

Ultracode® Deluxe- Electronic Code Cutter (Cylinder/Automotive)

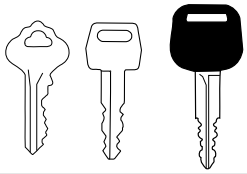

The Ultracode® Deluxe, an innovative electronic code-cutting machine features automatic calibration, key registration and code cuts keys either stand-alone or linked to a personal computer. Using its patented optical reader, the Ultracode is also able to duplicate keys with incredible accuracy. A variety of cutters, jaws and adapters are available making this a very versatile machine.

Weight: 81 lbs. (37 kg)
Dim.: 19.75"W x 19.75"D x 16.5"H
(50.16cm x 50.16cm x 41.9cm)

Universal II - Dial Operated Code Cutter (Cylinder/Automotive)

The ultimate “card-type” code machine! The Universal II allows the operator to switch from originating keys for one lock system to another in seconds. Special performance features include dial-type depth adjustment, wide key alignment gauge and “EZ View” code cards with special space and depth markings for faster, more precise operation. Supplied with two cutters and 140+ code cards.

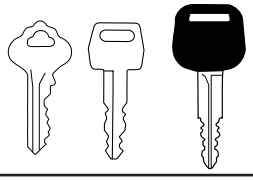

Weight: 37.5 lbs. (17 kg)
Dim.: 12"W x 14"D x 10"H
(30.4cm x 35.6cm x 25.4cm)

Ilco EZ®-Code Code Cutter (Cylinder/Automotive)

The Ilco EZ®-Code electronic code machine cuts traditional automotive and commercial keys by indirect code, bitting number, or duplication. Include an internal database containing over 200 automotive code series, and electronic cut specifications that allow it to originate keys for hundreds of different locking systems. Can also be used in conjunction with Kreate-A-Key™ code software and a customer supplied PC. Microprocessor controlled for maximum accuracy.

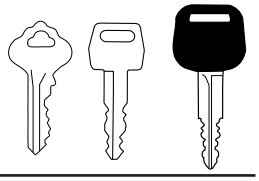

Weight: 52 lbs. (23.6 kg)
Dim.: 10.5"W x 19.5"D x 9"H
(26.67cm x 49.53cm x 22.86cm)

Tri-Code HS Code Cutter (Cylinder/Automotive)

The electronic Tri-code HS is designed for cutting internal and external “wave style” high security keys. Cuts by indirect code or bitting number, it can also decode and copy a working key. Straightforward menu driven operation, three position vise clamp, and “single cutter” design, makes for a very simple cutting process. Easy to read LCD screen and intuitive keypad operation. Advanced electronics and precision parts combine to deliver superior cutting accuracy.

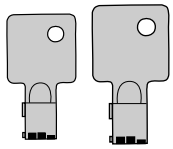

Weight: 95 lbs. (43.2 kg)
Dim.: 19.7"W x 19.7"D x 18.9"H
(49.96cm x 49.96cm x 47.98cm)

Crown - Lever Assisted Specialty (High Security)

The self centering synchronized key vise clamps are designed for precision duplication of tubular keys. In addition to the key styles that can be duplicated by the standard key vise clamps, additional clamps are available for cutting highly specialized tubular key types. (T10 Jaw is supplied with machine).

Weight: 37.4 lbs. (17 kg)
Dim.: 9"W x 17.75"D x 7"H
(23cm x 45cm x 18cm)

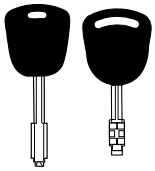

Delta FO - Manual Specialty (High Security) Code Machine

Simple to operate, the Delta FO is designed to cut by code the unique cuts required for Ford Tibbe and Jaguar Tibbe style keys. Ergonomic design, direct drive motor and high strength polymer base makes the Delta FO the ideal solution for cutting these high security keys.

Weight: 30 lbs. (17 kg)
Dim.: 8.5"W x 14.75"D x 10"H
(21cm x 3cm x 25cm)

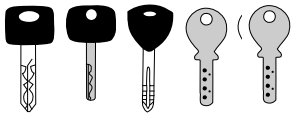

Matrix S - Lever Assisted Duplicator & Code (High Security)

Precision control in all three axis provide the ability to duplicate laser and dimple style keys with ease. The Matrix vise jaws handle a wide variety of keys without the need for adapters. Many types of commercial and automotive keys now use keys that can be duplicated only on a Matrix style key machine. Includes electronic adjustment feature. Cutters available for cutting various specialty key types.

Weight: 44 lbs. (20.15kg)
Dim.: 13.75"W x 15.75"D x 17.9"H
(34.8cm x 39.9cm x 45.5cm)

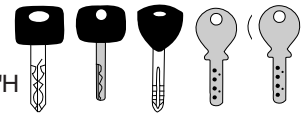

Triax-e.Code - Electronic Duplicator & Code (High Security)

The Triax-E.code is the first three axis stand alone machine that duplicates and cuts by code high security keys. It will also decode keys and automatically convert the cuts back to original lock specifications. The machine features quick and easy tool changes, automatic calibration and dual speed motor. The Triax can also be connected to a PC with an optional software package.

Weight: 92.4 lbs. (42 kg)
Dim.: 16.75"W x 2.3"D x 19.75"H
(42.5cm x 51.5cm x 50cm)

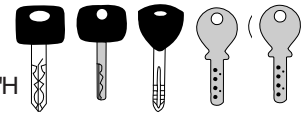

Quattrocode - Electronic Duplicator & Code (High Security)

This computer operated high security key machine automates many functions. It can decode a sample key, compare it to an on-board database, and automatically adjust to original lock specifications. Software includes popular high security code series for cutting by code.

Weight: 132 lbs. (60kg)
Dim.: 15.38"W x 22.5"D x 22.5"H
(39cm x 57 cm x 57cm)

046 HD - Manual Duplicator (Flat and Safe Deposit)

The perfect basic duplicator for flat style keys. Accurate, economical and easy to use. The offset carriage permits gauging of keys from tip or shoulder. Equipped with a .045" thick titanium nitride coated side milling slotter blade. Maintenance free Ball Bearing cutter spindle system, hardened shafts, Super Jaw 3 “sure grip” vises.

Weight: 32.8 lbs. (14.9kg)
Dim.: 14.5"W x 17.5"D x 8.75"H
(36.8cm x 44.5cm x 22.2cm)

Engrave-It

Engrave keys, pet tags, luggage tags, ID tags, and brass plates with this durable, compact engraving unit. Featuring simple menu driven operation, the Engrave-It is the perfect complement to key duplication services. A broad range of engravable tag items is available. Visit our website www.kaba-ilco.com to view the versatile Engrave-It in operation!

Weight: 48 lbs. (21.7kg)
Dim.: 13.5"W x 13.25"D x 14.5"H
(36.8cm x 44.5cm x 22.2cm)

Engrave-It PRO

A commercial duty engraving product for engraving multiples of the same item. Accessory key blank holders accommodate up to 24 blanks at a time; cylinder and core holder capacity varies dependent on item size. Can also be used for engraving brass metal plates and ID tags. A broad range of accessory holders are available. Includes special software and is intended for use with a customer supplied PC. Visit our website www.kaba-ilco.com to view the Engrave-It PRO in operation!

Weight: 65 lbs. (29.48kg)
Dim.: 19"W x 22.5"D x 14.5"H
(48.26cm x 57.15cm x 36.83cm)

Section 11
CROSS REFERENCE

This section lists major lock and replacement key manufacturers in alphabetical order and their key numbers in the appropriate sequence. The ILCO key equivalent is listed beside the original or competitors' key number. This listing is set up as a functional cross reference. Certain replacement key manufacturers have been omitted due to laws in their respective countries concerning the publishing of a cross reference.
